**Claims 1-6 and 19-26** are allowed.

The following is an examiner's statement of reasons for allowance: Prior art fails to teach or fairly suggest a sample holder for centrifuging sample in centrifugal evaporators that include heating means to assist the evaporation process, wherein the sample holder is formed from a material having high thermal conductivity and is adapted to receive containers each containing a sample to be evaporated and the containers are mounted in the holder so that neither the latter sample containers nor their contents can receive radiant heat directly from the heat source during centrifuging of the sample in the sample holder, but only from the holder.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
